Safer Internet Day

Safer Internet Day (SID) is organised by the joint Insafe-INHOPE network, with the support of the European Commission*, each February to promote safer and more responsible use of online technology and mobile devices, especially among children and young people. Celebrated on the second day of the second week of the second month, each year on Safer Internet Day thousands of people join together to participate in events and activities to raise awareness of online safety issues, right across the globe. SID 2017 will take place on Tuesday, **7 February 2017** and we'll be announcing the theme for the day very soon. Check the Safer Internet Day website at www.saferinternetday.org for the latest information, including events and activities in your country.

Better Internet for Kids portal

For general information on the eSafety landscape, in both Europe and beyond, check out the Better Internet for Kids (BIK) web portal* at www.betterinternetforkids.eu. Providing a comprehensive range of digital tools and services that help to make the internet a trusted environment for children and young people through actions that empower and protect them online, the portal provides news and resources from the Insafe-INHOPE network of European Safer Internet Centres (SICs), and other stakeholders in the field such as the research community, industry, NGOs and policy makers.

Content and services available via the site include daily news stories on better internet issues, a quarterly BIK bulletin, a guide to online services, a repository of eSafety resources and a video gallery.

* Safer Internet Day and the Better Internet for Kids portal would not be possible without the support of the European Commission. Currently the funding is provided by the Connecting Europe Facility programme (CEF). Find out more about the EC's 'European Strategy for a Better Internet for Children' on the Digital Single Market website: <https://ec.europa.eu/digital-single-market/en/european-strategy-deliver-better-internet-our-children>.
