# Discover the internet together... safely

## Tips for Children

- Set Profiles to private so that only people you know and have granted permission to can access your page.
- Guard personal information online: even private profiles are not 100% secure.
- Think before you publish: information and photographs which are published online are there forever.

## Tips for Parents

- There are a number of products and solutions available to help protect your child from any online dangers but the best solution is **you**.
- Set family rules for using the internet such as when it can be used and for how long.
- Encourage your children to talk to you about anything uncomfortable they may find.

For more information about the Office for Internet Safety you can log onto **[www.internetsafety.ie](http://www.internetsafety.ie)**

Or phone the helpline on **01 408 6122**
